General Program Guide

1 Program Description

The intent of the Environmental Study Grant Program is to provide a financial incentive in the form of a grant to help offset the cost of conducting Phase II Environmental Site Assessments (ESAs), Remedial Work Plans, and/or Risk Assessments/Risk Management Plans. The purpose of this program is to promote the undertaking of environmental studies so that more and better information is available with respect to the type of contamination and potential remediation costs on brownfield properties.

2 Who can apply?

Owners of properties within the area designated as Urban Area in the City of Niagara Falls Official Plan may apply. Prospective purchasers of property and other non-owners may apply, but only with the written consent of the property owner. Applications will be accepted only for properties where there is the potential for remediation and rehabilitation/redevelopment.

3 How does the program work?

The program is a “50-50” matching grant program where the City of Niagara Falls will provide a grant to an applicant for up to 50% of the cost of an eligible environmental study (excluding taxes).

4 What types of studies are eligible for funding?

Phase II ESAs, Remedial Work Plans, and Risk Assessment/Risk Management Plans are eligible for an Environmental Study Grant. Phase I ESAs are not eligible.

Any study work carried out prior to written receipt from the City of grant approval is not eligible for the grant.

5 What is the maximum grant amount?

The maximum grant amount for eligible properties will be up to \$7,500 per environmental study, with a maximum of two (2) environmental studies per property/project and maximum total grant of \$15,000 per property/project. The total value of any grant(s) provided under this program will be deducted from eligible program costs for the Brownfields Tax Assistance and Rehabilitation Grant Program.

6 What conditions must be met to be eligible for a grant?

- Applications must be made in writing prior to commencement of the environmental study (see attached for Application Form);
- Applications must be for an environmental study that has the purpose of:
 - a) confirming and describing contamination at the site (partial or complete Phase II ESA);

b) developing a plan to remove, treat, or otherwise manage contamination found on the site (Remedial Work Plan/Risk Assessment/Risk Management Plan).

- Applications must be accompanied by a:
 - a) Phase I ESA that demonstrates that site contamination is likely;
 - b) detailed work plan and cost estimate prepared by a "qualified person" (as defined by the Environmental Protection Act and Ontario Regulation 153/04) for all eligible environmental studies;
- The property owner may be required to submit other supporting documents as specified by the City (see attached list);
- All environmental studies shall be completed by a qualified person;
- All completed environmental studies must comply with the description of the studies as provided in the grant application form;
- One (1) electronic and one (1) hard copy of the study findings shall be submitted to the City for review. You must agree to provide the City with permission to notify any other subsequent project proponents of the existence of an environmental study or studies;
- Actual costs for any or all items eligible for a grant may be subject to audit by the City, at the expense of the property owner.
- Where other sources of government and/or non-profit organization funding (Federal, Provincial, Regional, Federation of Canadian Municipalities, etc...) are anticipated or have been secured, these must be declared as part of the Environmental Study Grant application. Accordingly, the grant amount may be reduced on a pro-rated basis.

7 Is there a fee to apply?

No.

8 How do I apply for a grant?

- a) Arrange a pre-application meeting or consultation with staff in order to determine program eligibility, proposed scope of work, project timing, etc...
- b) Complete and submit an application form. Ensure that all required signatures have been provided and that the application is accompanied by all required documentation.

9 What happens next?

- Applications are reviewed by staff. A decision on the application is made by staff and you will be notified of the decision in writing. Staff may request clarification or additional supporting documentation.
- If your application is approved, you will receive an approval letter specifying the amount of the grant and the requirements that must be met in order to receive payment of the grant. If your application is not approved, you will receive a letter advising you of this.

- Once you have received the City's approval letter, the study may commence.
- Contact Municipal staff when the study is completed.
- Submit to the City one (1) electronic copy and one (1) hard copy of the study, and a copy of an invoice(s) showing that the study has been paid for in full.
- The actual grant amount will be calculated based on 50% of the original cost estimate for the study or 50% of the actual cost of the study, whichever is less.
- Upon review and approval of all submitted documentation, the City will issue a grant cheque to the applicant for the full amount of the approved funding.
- The City reserves the right to audit the cost of the environmental study prior to advancing the grant payment.

For further information on this program, please contact the Planning, Building and Development Services Department at 905-356-7521 ext. 4238.
