**Relocation and Removal Plan**

**Date completed:** August 10, 2016

**Purpose:** This plan was created based on data collected during a site walk of the maintenance buffer. Its purpose is to inventory any and all trees and hard surfaces that encroach on the marked maintenance buffer and propose solutions to each case as highlighted in the legend.

**Additional Notes:**

- Not all buckthorn is marked on this map; all buckthorn will be removed as it is an invasive species that will crowd out native trees that are to be planted on October 22nd on TD Tree Days
