## PROPOSED AMENDMENTS & MODIFICATIONS

Official Plan and Zoning By-law Amendments have been submitted for a special policy area to increase the maximum permitted net residential density, from 100 units per hectare to 164 units per hectare. The applicant proposes to convert the existing three-storey commercial building to a mixed-use building containing a total of 118 rental dwelling units and various commercial uses. Of those 118 units, 30 units (25%) are proposed to be affordable. The proposal is located within the Built-Up Area and the Lundy’s Lane Satellite District. Residential intensification is encouraged within this District in standalone or mixed-use buildings.

The subject lands are designated Tourist Commercial within the City’s Official Plan and zoned Tourist Commercial (TC) in accordance with Zoning By-law No. 79-200, as amended.

The applicant is requesting a site-specific TC zone to add dwellings units on the ground floor, to increase the total floor area of the dwelling units located in a

building to a maximum of 91 % for all residential uses, to recognize a zero setback for the rear yard requirement of the existing building, and to provide a minimum parking requirement for all uses of 91 spaces.
