**PRECONSULTATION**

A formal pre-consultation meeting with City Planning staff is required to take place within 1 year prior to application submission.

Pre-consultation does not imply or suggest any decision whatsoever on behalf of City staff or the City of Niagara Falls to either support or refuse the application. Pre-consultation identifies information and application requirements for application submission.

**COMPLETE APPLICATION**

The information requested by this application form and fees are required to constitute a “complete application”.

Until all required information and fees have been submitted to City standard, the City may refuse to accept or further consider the requested amendment(s).

**PUBLIC CONSULTATION**

Applicants and/or their agents are required to participate in open houses and public meetings hosted by City staff to inform surrounding property owners about proposed development that could result from the proposed amendments.

**FEES**

Separate cheques made out to the City, Region, and NPCA are required.

The Region accepts on-line payments through their on-line payment portal: <https://www.niagararegion.ca/business/payments/default.aspx>

If fees are paid directly to the Region, please provide a copy of receipt with application submission.

**\*\*Fees are current as of the update of the application form. Please consult with City and Agency staff, or the respective agency websites, to confirm amounts identified on your pre-consultation meeting report.**

## Appendix A

In order to assist in determining if the subject lands are potentially contaminated, please complete the following. It should be acknowledged that if there is reason to suspect contamination, further studies and plans will be required and that a Record of Site Condition will also be required in the event of remediation.

Has the grading of the subject land been changed by adding earth or material? Has filling occurred on the subject land?

Yes     No     Unknown

Has a gasoline station and/or automobile service station been located on the subject land or adjacent lands at any time?

Yes     No     Unknown

Has there been petroleum or other fuel stored on the subject land or adjacent lands?

Yes     No     Unknown

Are there or have there ever been underground storage tanks or buried waste on the subject land or adjacent lands?

Yes     No     Unknown

Have the lands or adjacent lands ever been used as an agricultural operation where cyanide products may have been applied as pesticides and/or sewage sludge applied to the lands?

Yes     No     Unknown

Have the lands or adjacent lands ever been used as a weapons firing range?

Yes     No     Unknown

Is the nearest boundary line of the application within 500 metres (1,640 feet) of the boundary line of an operational/non-operational public or private waste disposal site, landfill or dump?

Yes     No     Unknown

If there are existing or previously existing buildings on the subject lands, are there any building materials remaining on the site which are potentially hazardous to public health (e.g., asbestos, PCB's)?

Yes     No     Unknown

Is there reason to believe the subject lands may have been contaminated by existing or former uses on the site or adjacent sites?\*

Yes     No     Unknown

\*Possible uses that can cause contamination include: operation of electrical transformer stations, disposal of waste minerals, raw material storage, and residues left in containers, maintenance activities and spills. Some commercial properties such as gasoline stations, automotive repair garages, and dry cleaning plants have similar potential. The longer a property is under industrial or similar use, the greater the potential for site contamination. Also, a series of different industrial or similar uses upon a site could potentially increase the number of chemicals which are present.

If current or previous use of property is industrial or commercial, or if the answer is YES to any of the above, please attach a previous use inventory showing all former uses of the subject land, or if applicable, the land(s) adjacent to the subject lands.

**ACKNOWLEDGEMENT CLAUSE:**

I hereby acknowledge that it is my responsibility to ensure that I am in compliance with all applicable laws, regulations, guidelines and the City’s Official Plan policies pertaining to contaminated sites, and to use all reasonable effort to identify the potential for contamination on the subject property. I acknowledge that as a condition of approval of this application that the City may require me to file a Record of Site Condition signed by a qualified person in the provincial Environmental Site Registry, and provide verification to the City of acknowledgement of this Record of Site Condition by the Ministry of Environment. I acknowledge that the City may require the qualified person signing the Record of Site Condition to submit to the City a Declaration acknowledging that the City may rely on the statements in the RSC. I further acknowledge that the City of Niagara Falls is not responsible for the identification and/or remediation of contaminated site, and I agree, whether in, through, or as a result of any action or proceeding for environmental clean-up of any damage or otherwise, I will not sue or make claim whatsoever against the City of Niagara Falls, its officers, employees or agents for or in respect of any loss, damage, injury or costs.

**Appendix B**  
**City of Niagara Falls**  
**Corporate Submission Standard**

The following are standards required by applicants/consultants for submissions to the City.

The City reserves the right to deem a development application or project submission “Incomplete” if these standard submission requirements are not met.

**Digital Delivery:**

Digital submissions will be delivered to The City either by Secure Drop Box, Secure FTP or by portable drive submission directly to the applicable municipal staff

**Ownership Confirmation:**

“Final Deed” from the land registry office will be the only acceptable proof of ownership accepted by City staff. A detailed PIN and associated PIN Map may also be required upon request.

(Preliminary or In-Progress deeds or Transfers are not proof of ownership and unfulfilled conditions may revert ownership modifications.)

**Address Validation:**

Civic addressing must meet internal validation rules and match the corporate addressing database. Addressing is implemented by Information Systems – GIS division, and adheres to the most current “Civic Addressing Policy”

**Photos/Pictures:**

The standard format for photos and pictures without data will be .tif or .jpeg

**Graphical Images:**

Graphical images will be accepted in .pdf format but are not considered true digital plans. Preliminary or conceptual plans may be in this format where indicated in writing by City staff

**Plans/Drawings:**

All digital plans transferred to The City are to be supplied in true spatial format as outlined below:

- Projected and tied to Geographic Coordinate System\_North American Datum\_1983\_CSRS\_Universal Transvers Mercator\_Zone 17N
- Be provided in one of three acceptable formats including ESRI file geodatabase, shape file (.shp) version 10.3 or higher or AutoCAD drawing file (.dwg) version 2016 or higher, for compatibility purposes.
- Meet the corporate CAD standard template available from <https://niagarafalls.ca/pdf/municipal-works/cad-manual/cad-standards-manual.pdf>
- Follow proper topology rules (closed polygons, snapped lines etc)

- Ensure unique Identification links between the graphics and data attributes (hovers, labels, annotation and text layers do not qualify as identifying links)
- Include all support files or customizations necessary to defend and reprint the submission
- Be accompanied by MetaData and include at least the following six attributes:  
Last Modification Date, File Format, Data Source, Technical Contact Info,  
Project or File Reference Number, Unique ID Field Name

All exceptions or allowances must be agreed upon by City management staff and be stated in writing within the file.
