### PROPOSED AMENDMENT

A Minor Zoning By-law Amendment application has been submitted to facilitate the development of a 6-storey mixed-use building consisting of ground floor commercial and 195 dwelling units.

The subject lands are designated Tourist Commercial and are located within Special Policy Area No. 94. Further, the lands are zoned site-specific Tourist Commercial (TC(H)-1239) Zone in accordance with Zoning By-law No. 79-200, as amended by By-law No. 2024-030. The current designation and zoning of the lands permits the development of a 10-storey mixed-use building.

The applicant is proposing to amend the existing site-specific zoning to reduce the building height to 6-storeys and the parking rate to 1.1 parking spaces per dwelling unit. Further, the applicant proposes to establish a maximum net density of 217 units per hectare, eliminate Schedule 2 of By-law No. 2024-30, and eliminate the holding provision that requires the submission of a Quantitative Wind Study and the provision of a rooftop feature.
