QUESTION #1:

Your original RFT states the following:

EMS medical equipment storage cabinet behind driver and captain seats, size to be determined.

AND

Medical storage cabinet size to be determined to be installed behind front seats accessible for the rear occupants.

Addendum #2 states the following:

Medical compartment to be custom made to fit **between** driver and Officer seat. Equipped with roll up door and rope lighting. Exact specifications/measurements to be determined.

Please clarify if you would like two (2) EMS cabinets, one behind the driver and one behind the officer seat **OR** one (1) cabinet between the driver and officer seat mounted on the engine tunnel.

ANSWER #1:

There is to be only one medical storage cabinet behind the driver and the captain seats, size to be determined, accessible for the rear occupants. Between the seats is not possible as the dog house for the engine compartment is there.
